

Marketplace Builder Hackathon

Day No: 01 :-

Laying the foundation for the Marketplace Journey

Q-Commerce :-

Q-Commerce (Quick Commerce)

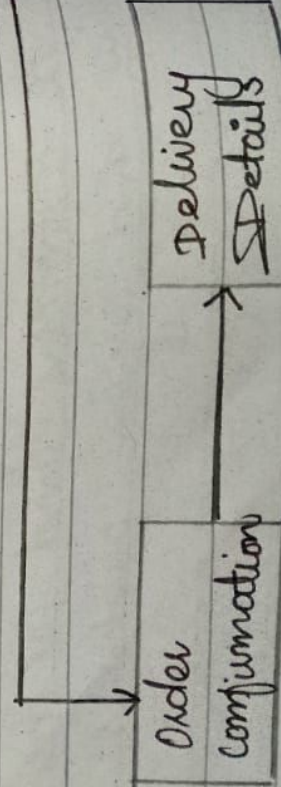

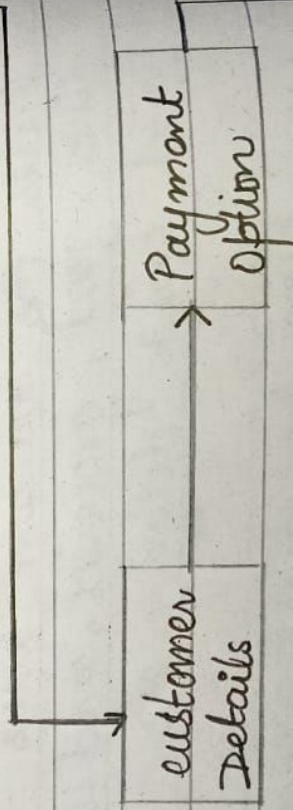

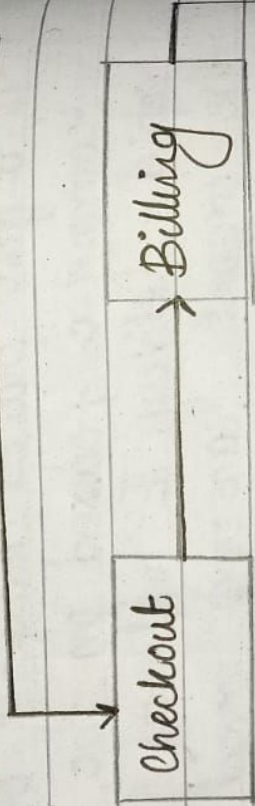

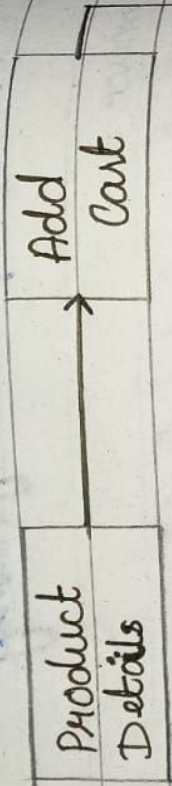

is a fast paced subset of the e-commerce focused on the rapid delivery. It addresses the urgent consumer need by items within short time under the minimum word like food, groceries, medicines and snack delivery etc.

a) It focused on the fastest services for the customers and for the again and again purchases

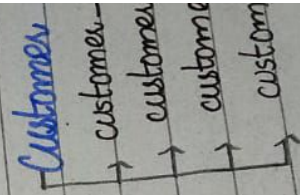

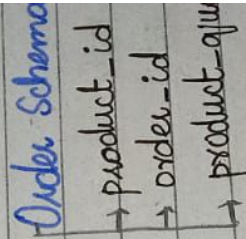

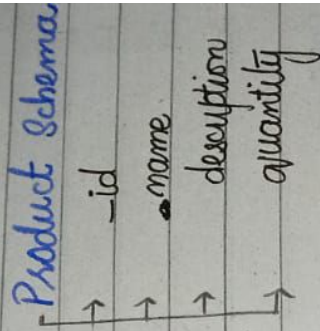

b) Meets immediate needs for the fast delivery of essentials

Primary Purpose of

E-commerce
